SocialHub Console

Your Gateway to Community Connection

In order to participate in the **Vyvo SocialFi program**, you must have an active **SocialHub Console**.

The **SocialHub Console** empowers **Members** to create a connection with their community and leverage the benefits of our exciting program.
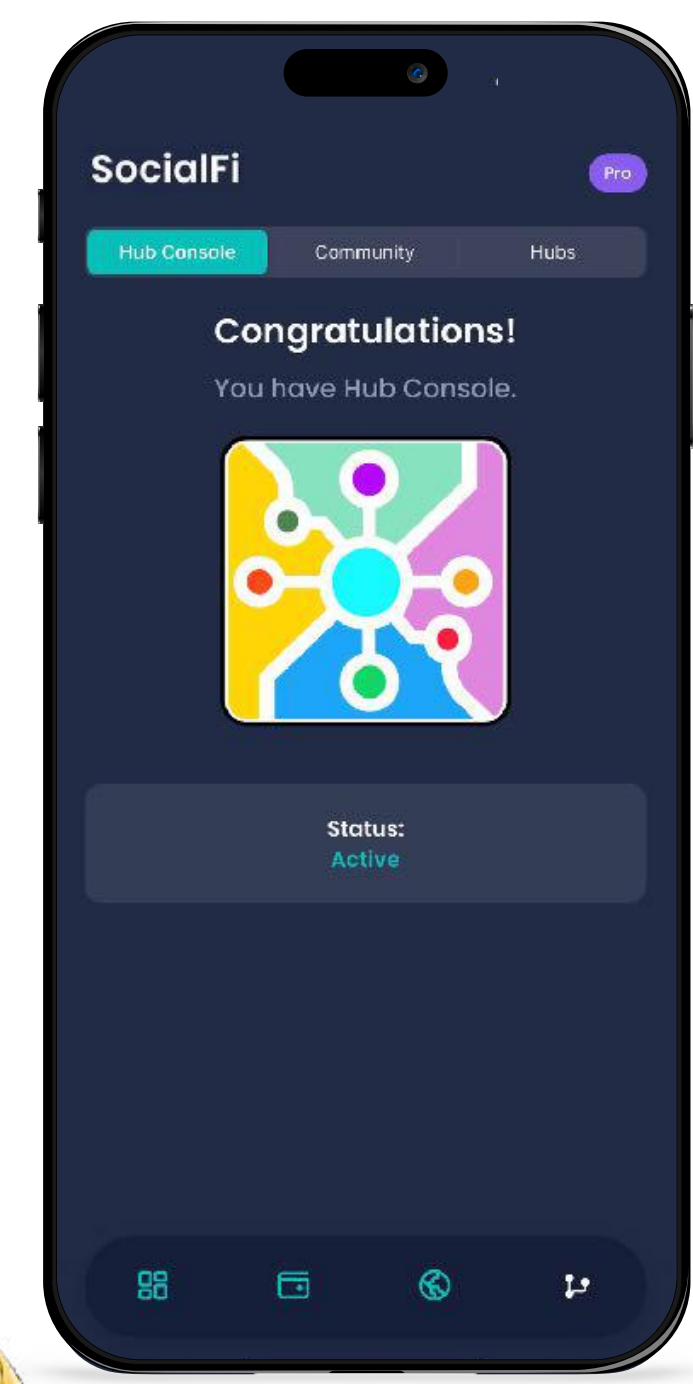

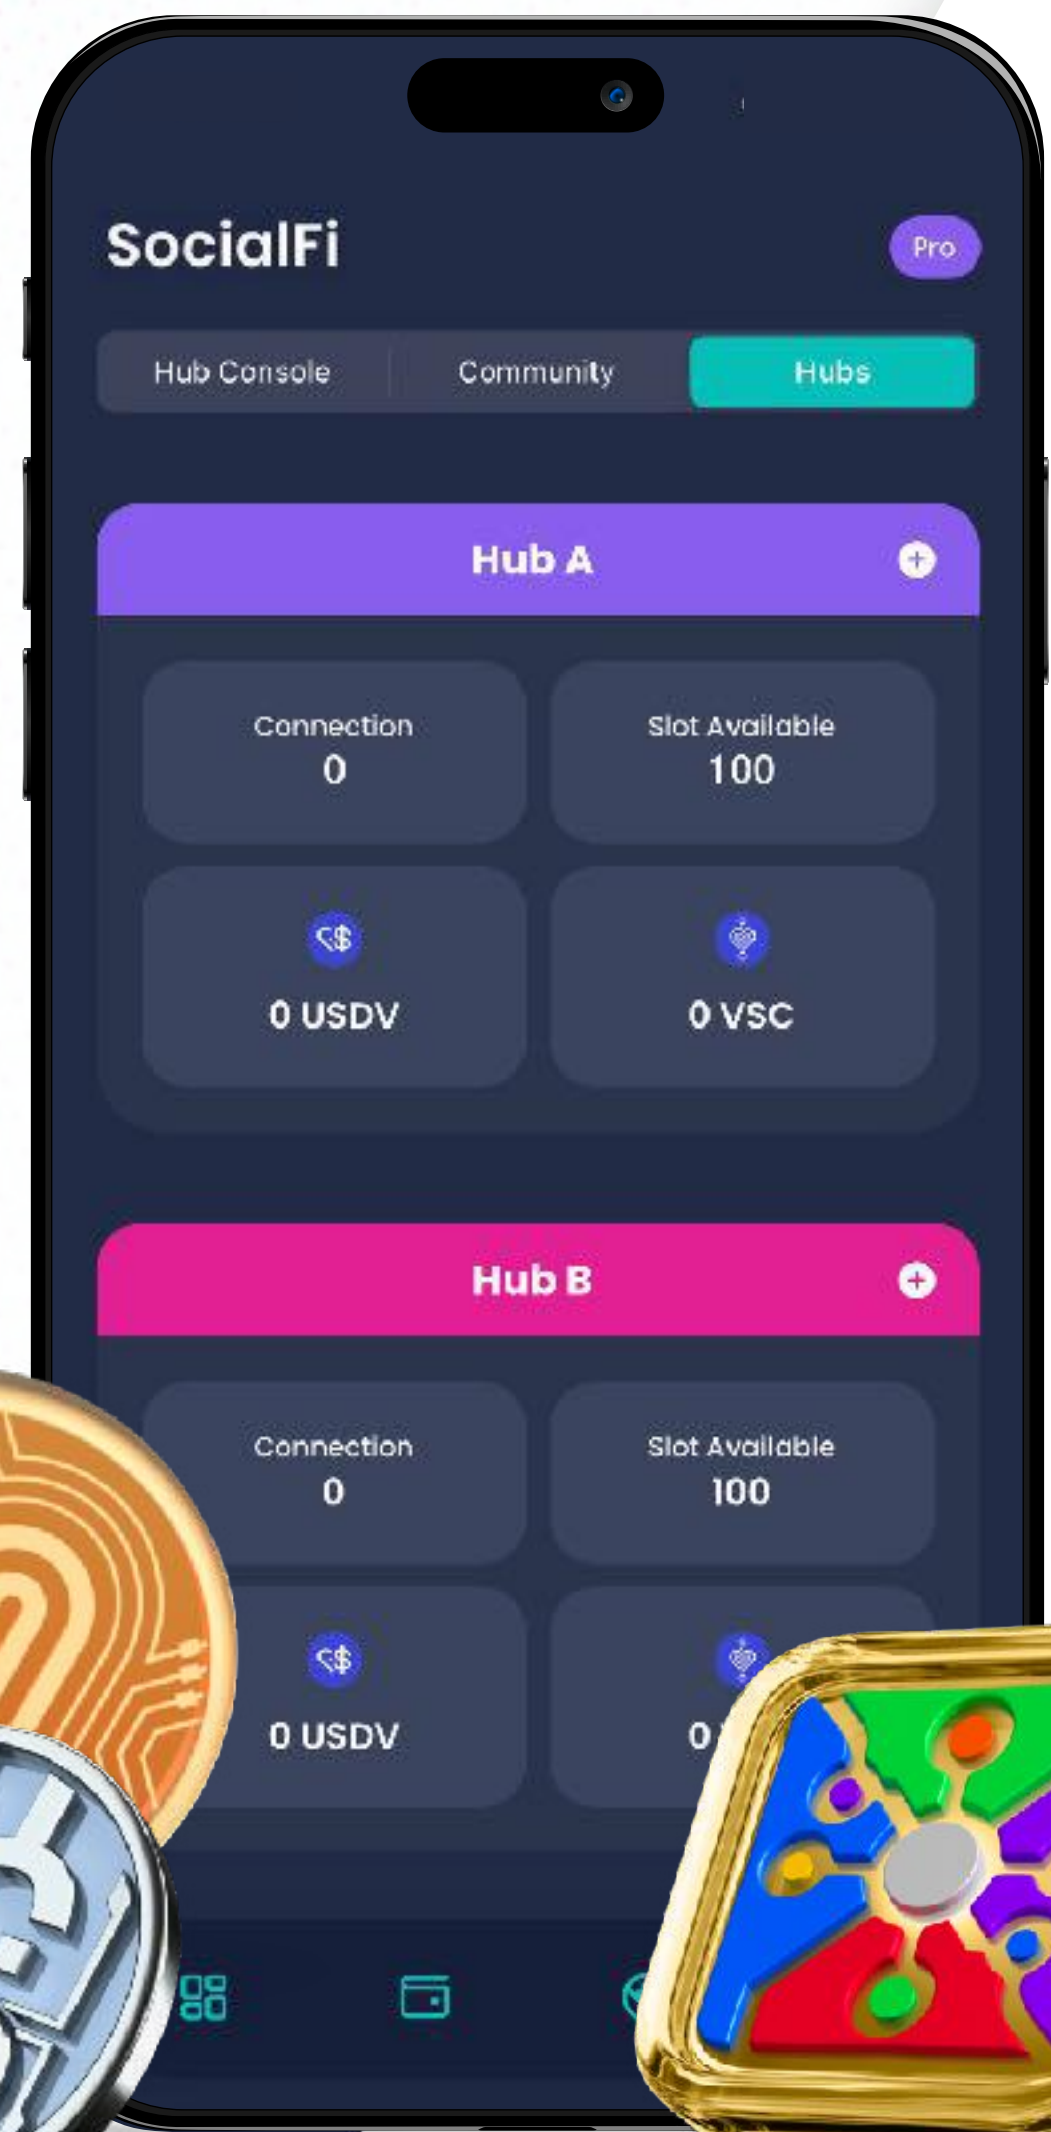

SocialHub Console
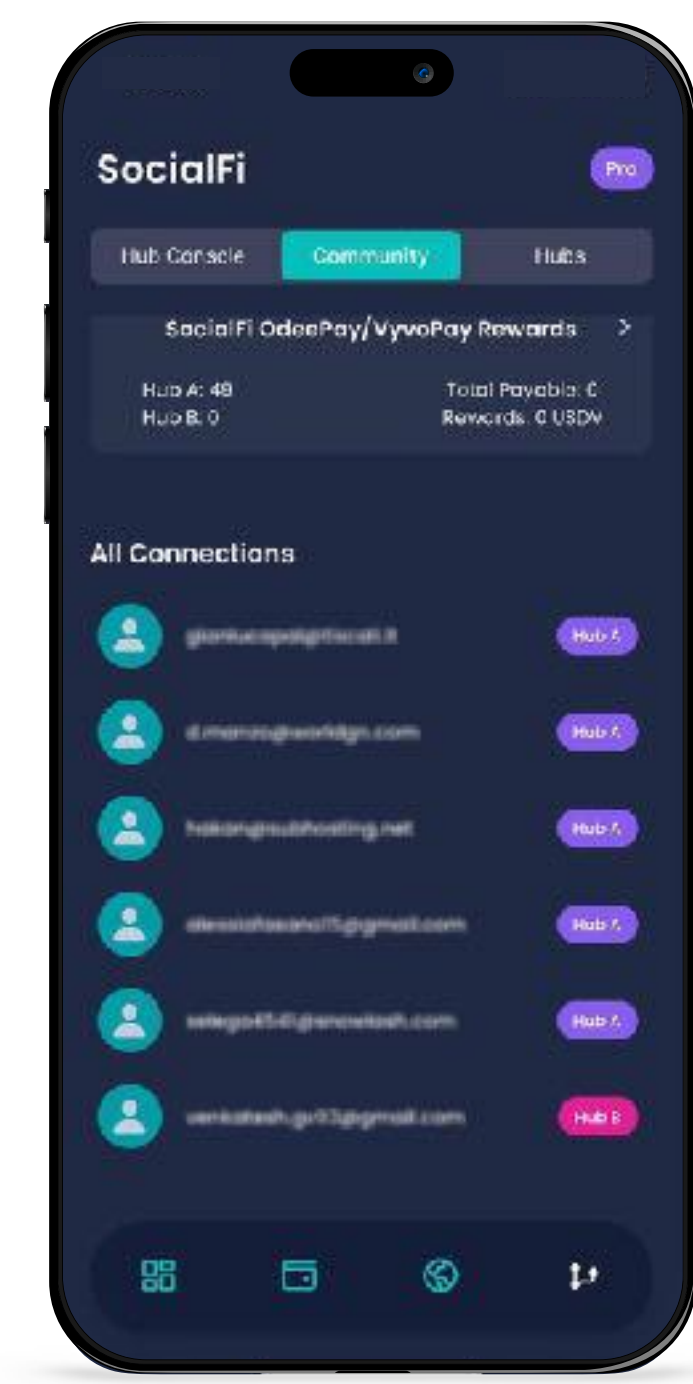

$99/year*

2 Hubs and access to all USDV and VSC rewards

*This product generate 0 Hub Volumes (HV) and 0 Connection USDV

SocialHub Console
Functionality

The SocialHub Console
is a digital tool that allows you to create connections between you and your community inside the **Vyvo SocialFi** platform.

The Connections
made through **invitation codes** and capture pages are the building blocks that help you maximize your potential earnings.

Incentive Highlights

Discover various ways in the SocialFi program to boost your income and gain recognition.

Community Pool USDV*

The entire community generates **Hub Volumes** that correspond to **100%** of **every product purchase** and **50%** of the **NFT staking purchase**. Your **Hubs' epoch** performance determines your reward from the global **Sharing Pool USDV.**

The **Community Pool Reward** is calculated this way

1 Your **Payable** value is calculated based on your **Hubs** using the following calculation

Payable = **Total Hub A HV** + **Total Hub B HV** - **Delta HV (Hub A, Hub B)**

where the **Delta** is the difference between the values **Total Hub A HV** and **Total Hub B HV**

**2** Your Payable value is multiplied by 3.5% to determine your pool shares

3 Finally, every epoch the company provides a **share value***, and **your final reward** is

Community Pool Reward = **Your Pool Shares** x **Share Value**

The share value is typically equal to 1 USDV but may change depending on certain conditions, such as the type and cost of products sold on the partners' side, the total rewards cap, or other parameters.

Former SocialFi Community Reward

Please note: the Delta is carried over to the following epoch. Consult Delta Forward paragraph in <u>Terms & Conditions</u>
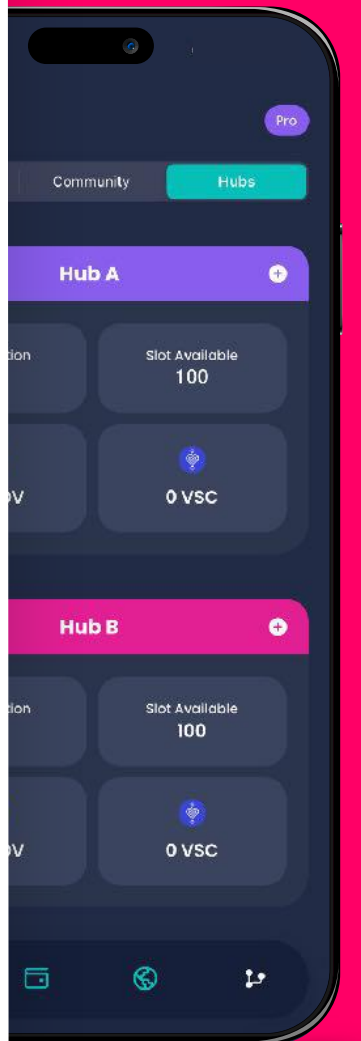

View an Example

Community Pool USDV*
Example

1

Your **Payable** value is calculated based on your **Hubs** using the following calculation

$$\begin{array}{c} 30{,}000 \\ \text{Hub A} \\ \text{HV} \end{array} + \begin{array}{c} 54{,}000 \\ \text{Hub B} \\ \text{HV} \end{array} = \begin{array}{c} 84{,}000 \\ \text{HV} \end{array} - \begin{array}{c} 24{,}000 \\ \text{Delta} \\ \text{HV} \end{array} = \begin{array}{c} 60{,}000 \\ \text{PAYABLE} \\ \text{HV} \end{array}$$

2

$$\begin{array}{c} 60{,}000 \\ \text{PAYABLE} \\ \text{HV} \end{array} \times 3.5\% = \begin{array}{c} 2{,}100 \\ \text{Pool Shares} \end{array}$$

3

$$\begin{array}{c} 1{,}890 \text{ USDV} \\ \text{Community} \\ \text{Pool reward} \end{array} = \begin{array}{c} 2{,}100 \\ \text{Pool Shares} \end{array} \times \begin{array}{c} 0.90 \text{ USDV} \\ \text{Share} \\ \text{Value*} \end{array}$$

** In this example we used a share value of 0.90 USDV but typically it is equal to 1 USDV.*

*Former SocialFi Community Reward

Community Pool OdeePay*

Whenever Members use a **VyvoPay** or **OdeePay** debit card, a small percentage** is returned to the **Community Hubs** in form of **Hub Volume**. Your contribution entitles you to a share of the global cash back in this pool.

The **Community Pool OdeePay** is calculated this way

1 Payable = Total Hub A HV + Total Hub B HV - Delta HV (Hub A, Hub B)
where the **Delta** is the difference between the values **Total Hub A HV** and **Total Hub B HV**

2 Your Payable value is multiplied by 3.5% to determine your pool shares

3 Finally, every epoch the company provides a **share value***, and **your final reward** is

Community Pool Reward = Your Pool Shares x Share Value

** You add 1 HV in Community Pool OdeePay Volumes for every US$10 in transactions that your community spends using their OdeePay/VyvoPay. This means US$19 in transactions still equals 1 HV, but US$20 in transactions equals 2 HV, and so forth.
HV cumulation is not based on the total of transactions but it is calculated after each transaction.

Please note: that ATM withdrawals are not eligible for the Community Pool OdeePay Reward.

*Former SocialFi OdeePay Reward

SocialFi

Epoch 2023 – INP 045
Epoch Ends Monday, January 1st 2024 - 23.00

HealthFi Total Rewards
Hub A: 50,200   Total Payable: 98,000
Hub B: 48,000   Rewards: 9,600 VSC

SocialFi Total Rewards
Hub A: 30,000   Total Payable: 60,000
Hub B: 54,000   Rewards: 2,100 USDv

SocialFi OdeePay/VyvoPay Rewards
10,000 USDV   Total Payable: 10,000
15,000 USDV   Rewards: 700 USDV

Community Pool OdeePay*
Example
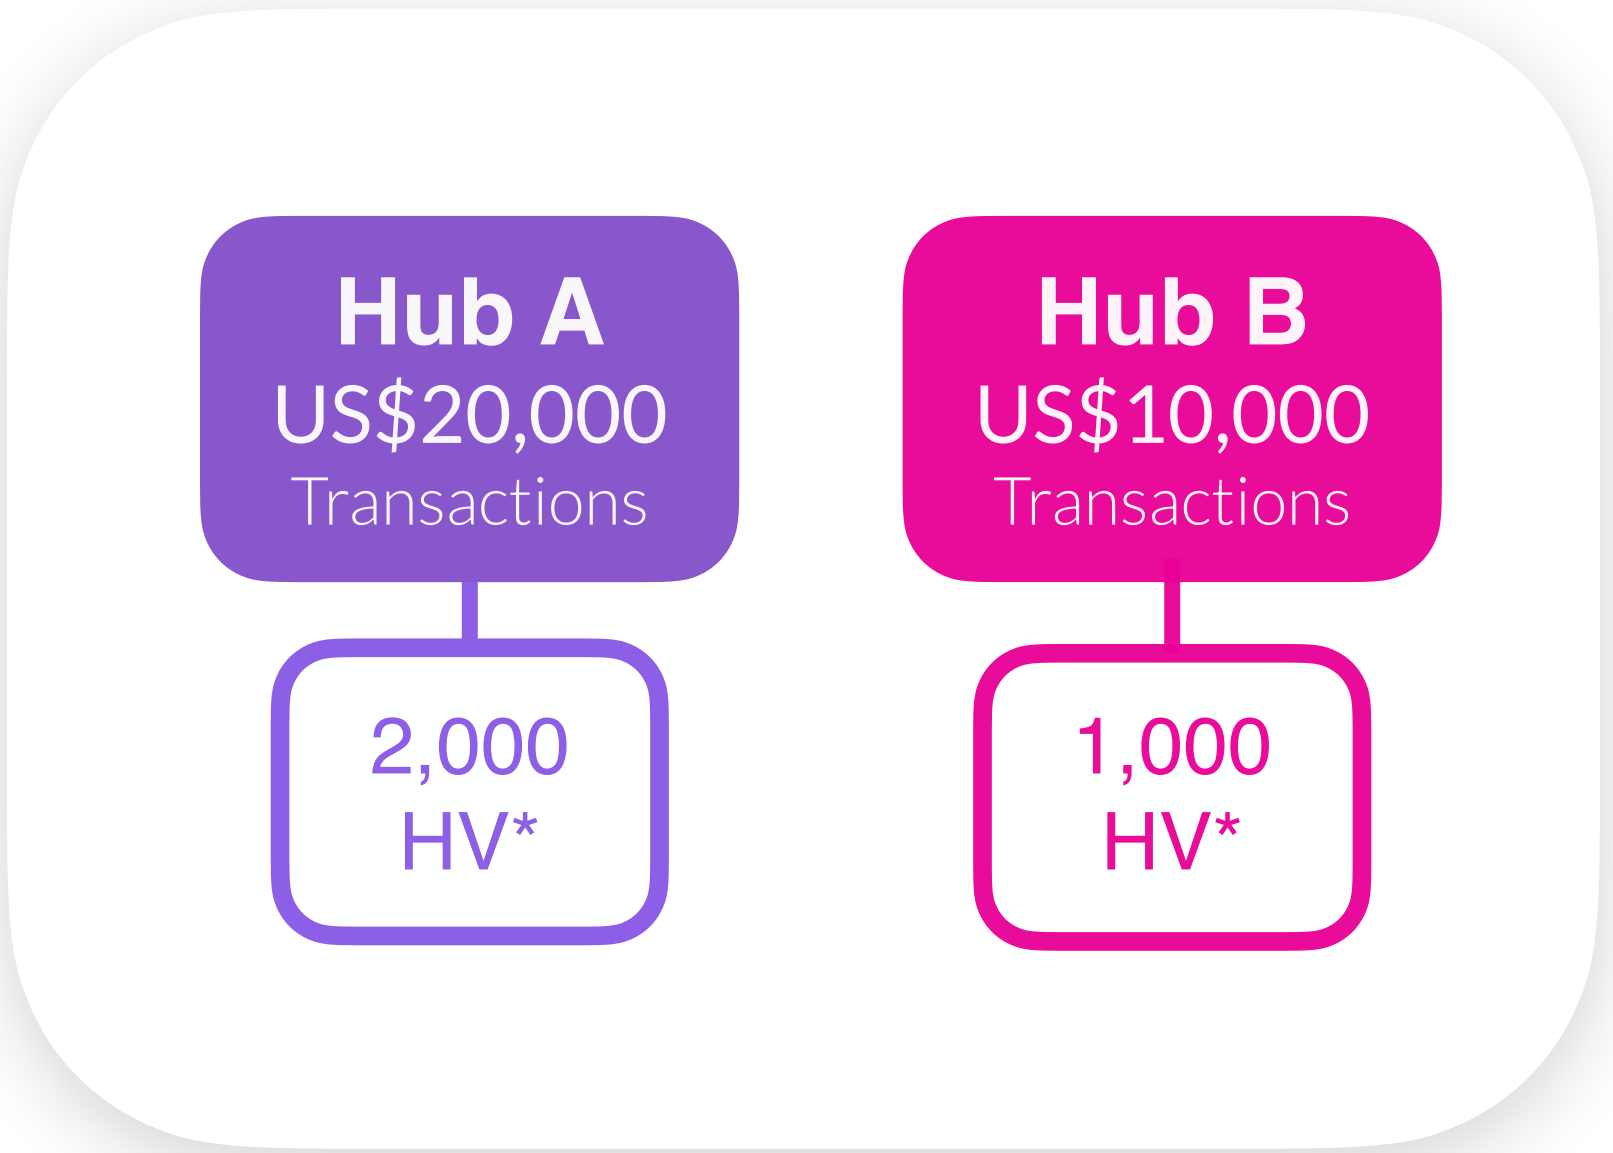

Hub A
US$20,000
Transactions

2,000 HV*

Hub B
US$10,000
Transactions

1,000 HV*

HV cumulation is not based on the total of transactions but it is calculated after each transaction.

1

PAYABLE = 2,000 Hub A HV + 1,000 Hub B HV − 1,000 Delta HV

2

2,000 PAYABLE HV X 3.5% = 70 Pool Shares

3

70 USDV Community Pool reward = 70 Pool Shares X 1 USDV Share Value*
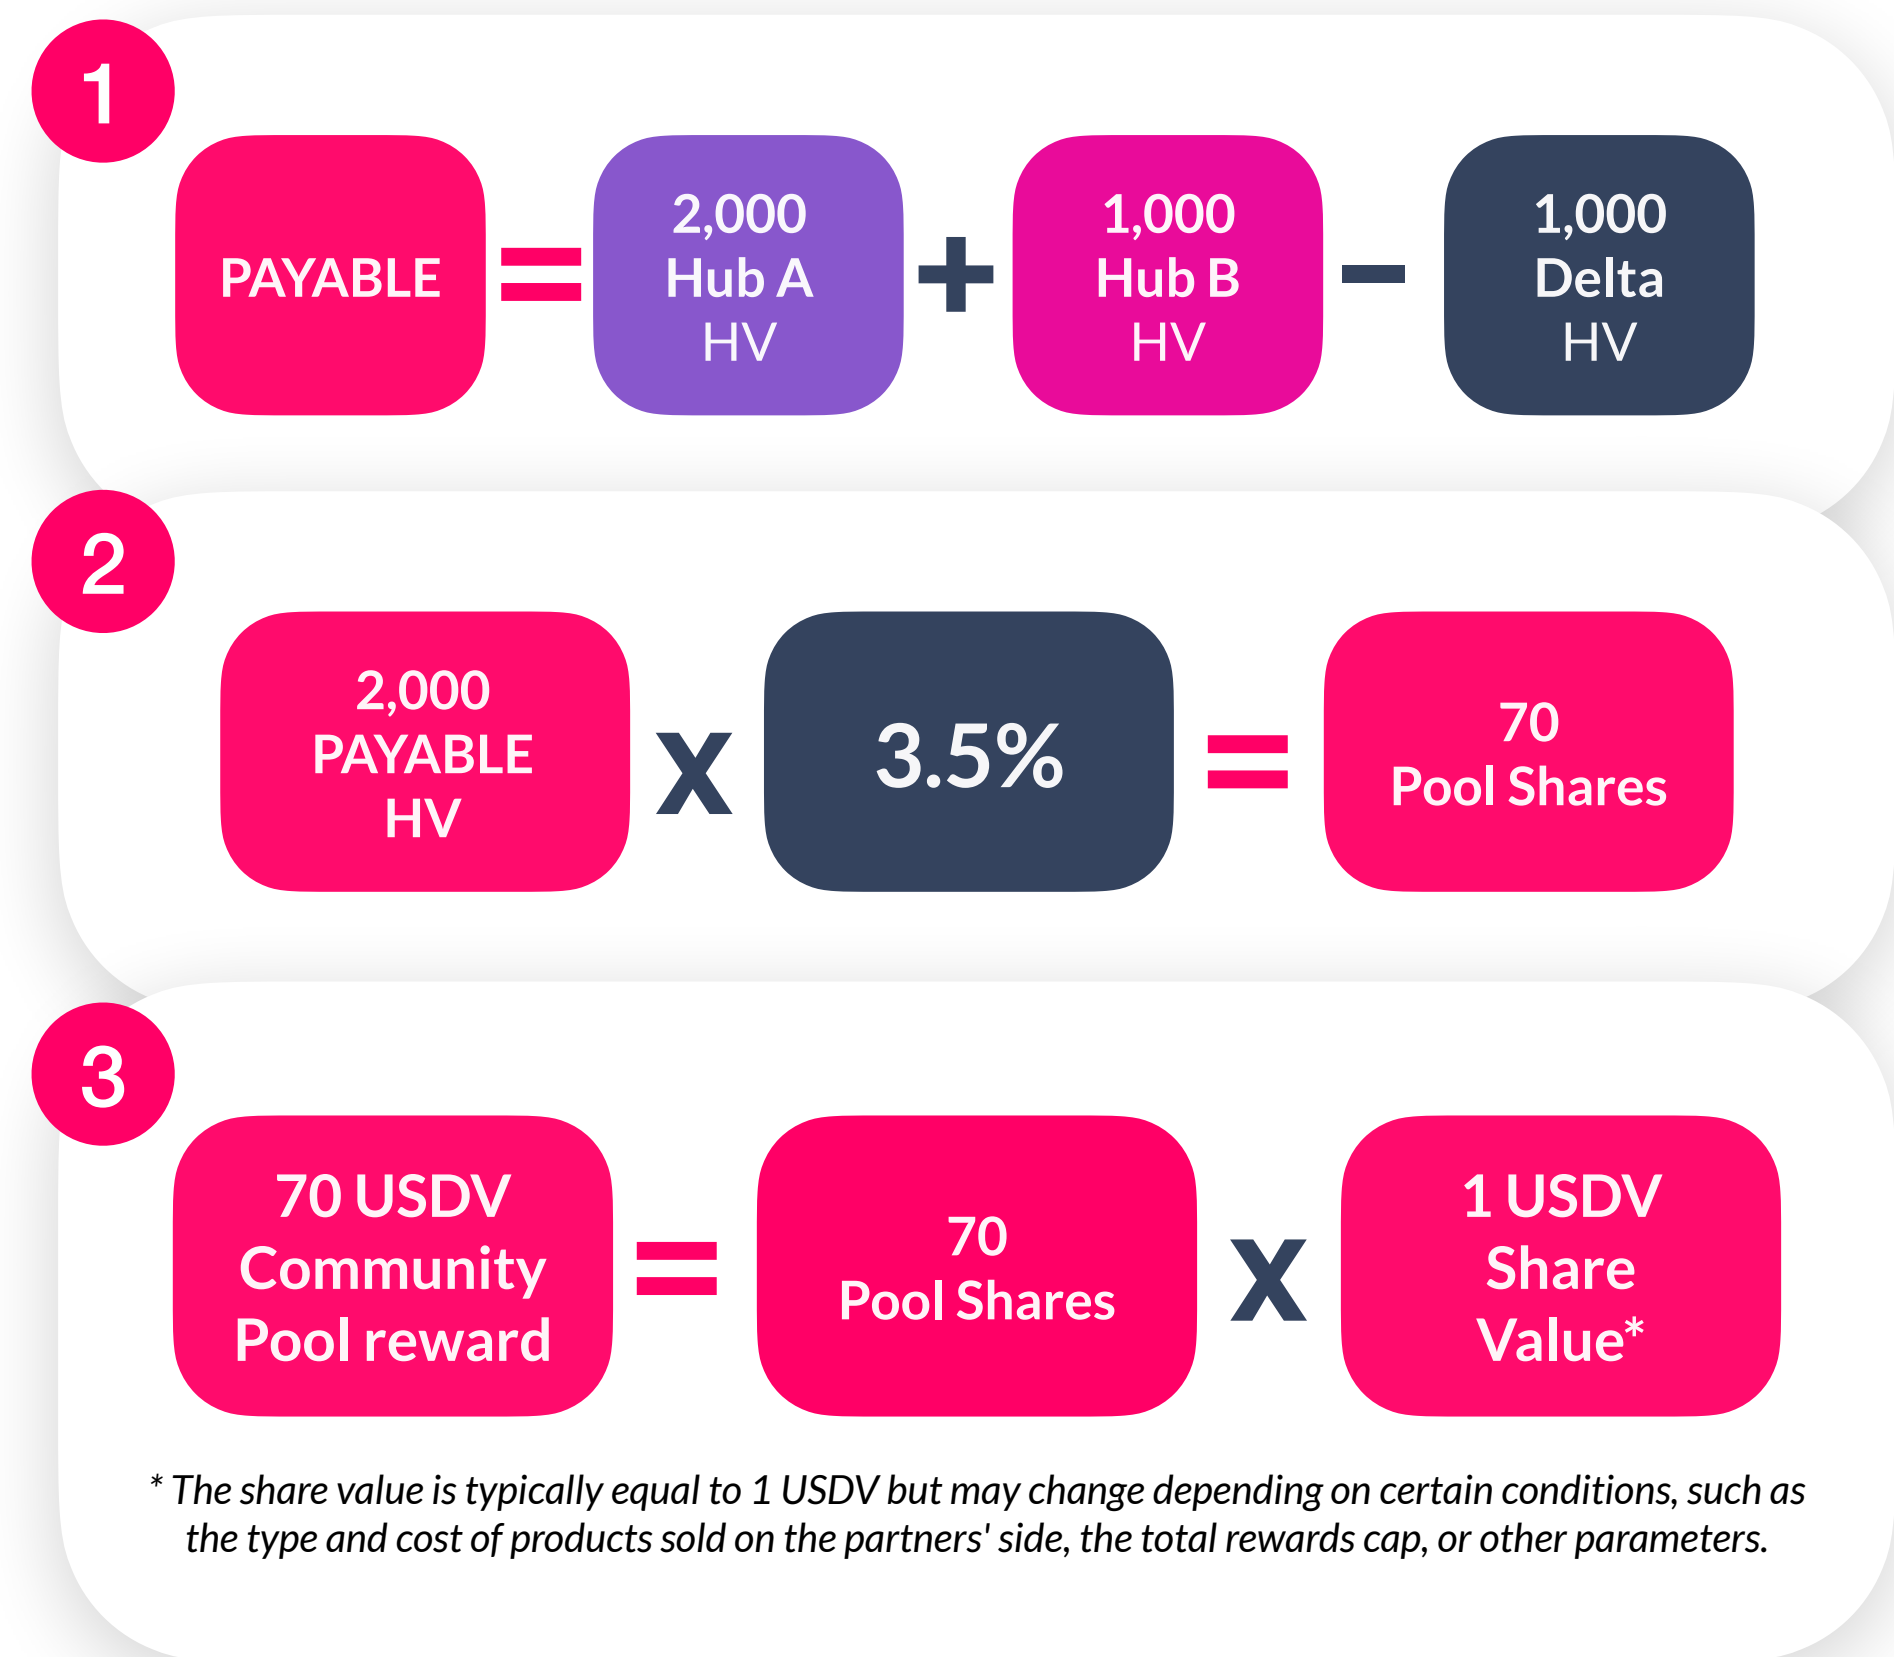

* The share value is typically equal to 1 USDV but may change depending on certain conditions, such as the type and cost of products sold on the partners' side, the total rewards cap, or other parameters.
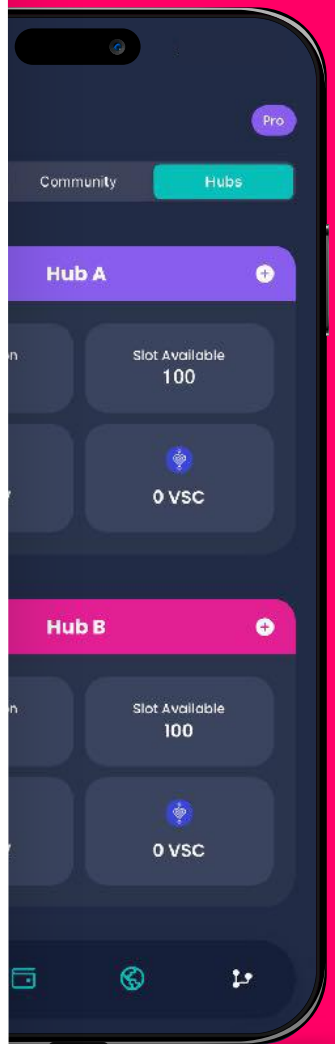

Former SocialFi OdeePay Reward
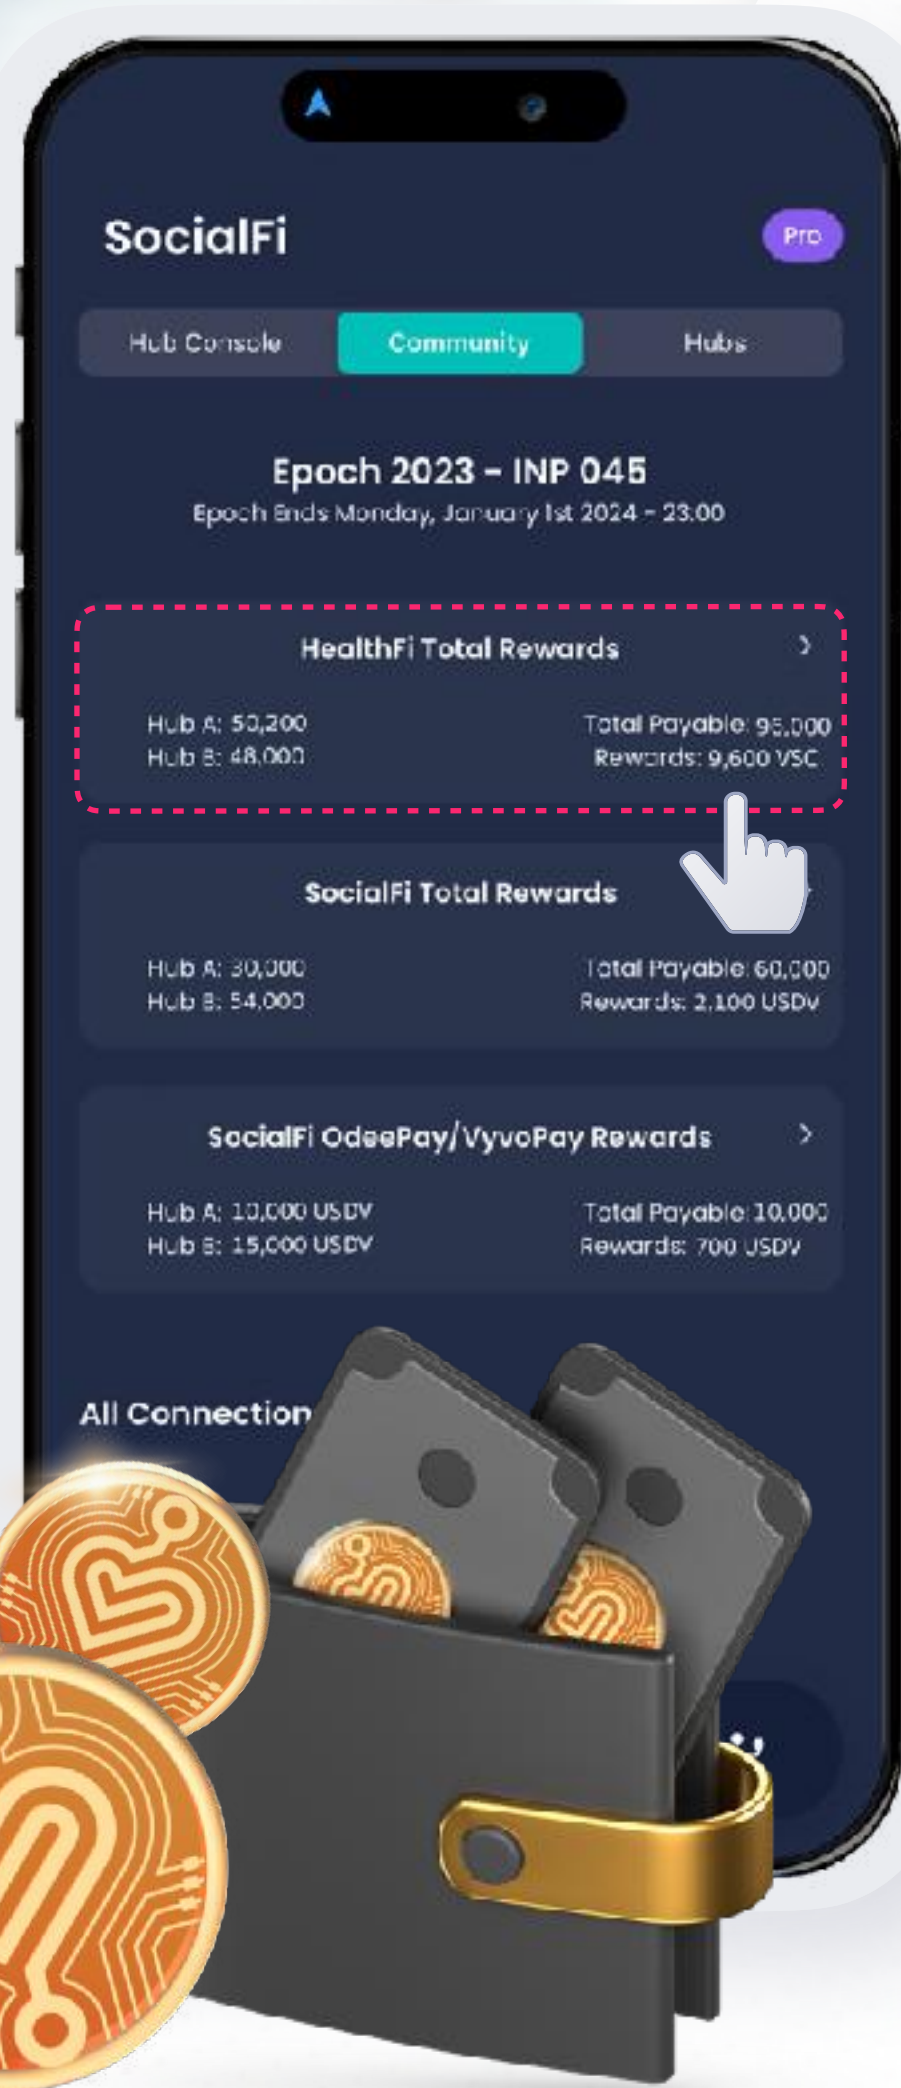

Community Pool VSC*

For your role in growing the **Vyvo Smart Chain** data mining Community, you'll be rewarded with a share of the daily earnings derived from global data mining activities.

Every user will contribute a corresponding **50%** of their **mining** to this **global pool**.

Your **share** of the **global mining pool** will depend on your **Hubs' performance.**

The **Community Pool VSC** is calculated this way

1 **Payable = Total Hub A VSC + Total Hub B VSC - Delta VSC (Hub A, Hub B)**

where the **Delta** is the difference between the values **Total VSC Hub A** and **Total VSC Hub B**

2 **Your Payable value is multiplied by 10% to determine your pool shares**

3 Finally, every epoch the company provides a **share value***, and **your final reward** is

**Community Pool Reward = Your Pool Shares x Share Value**

* The share value is typically equal to 1 VSC but may change depending on certain conditions, such as the type and cost of products sold on the partners' side, the total rewards cap, or other parameters.

*Former HealthFi Community Reward

Community Pool VSC*
Example

1

Your **Payable** value is calculated based on your **Hubs** using the following calculation

$$\text{100,000 Hub A VSC} + \text{220,000 Hub B VSC} = \text{320,000 VSC} - \text{120,000 Delta VSC} = \text{200,000 PAYABLE VSC}$$

2

$$\text{200,000 PAYABLE VSC} \times 10\% = \text{20,000 Pool Shares}$$

3

$$\text{24,000 VSC Community Pool reward} = \text{20,000 Pool Shares} \times \text{1.20 VSC Share Value*}$$

*In this example we used a share value of 1.20 VSC but typically it is equal to 1 VSC.

*Former HealthFi Community Reward

Community Awards

The **Community Award** is a recognition rank based on the total **Payable**, from the **Community USDV** reward, accumulated over the last four consecutive epochs.

Terms & Conditions

ACTIVE

You are considered Active if you own a digital SocialHub console.

CONNECTION

A connection is a Member linked to your Hub console.

CONNECTIONS PLACEMENT

You can add a connection by using the Invitation codes provided in your app. There are two types of Invitation codes: one for assigning a connection to Hub A and the other for assigning a connection to Hub B. Your choice of Hub placement depends on the decision you make when sharing your Invitation code with a prospective connection.

COMMUNITY DELTA

It is the difference in Hub Volumes after the Community Pool Reward USDV and VSC calculations (we calculate the Delta in Community Pool, Community Pool OdeePay and Community Pool VSC).

DELTA FORWARD

For the Community Pool Reward the Delta is carried over to the following epoch, where it plays a key role in determining the next reward amount. Activation condition is required; inactive participants will lose any accumulated volumes.

EPOCH

An epoch refers to a specific period, typically lasting seven days, in which the community's activity generates all rewards. Please note that the Company retains the right to alter the duration of any epoch.

EPOCH CYCLE CLOSING

An epoch typically spans a seven-day period and resets every Tuesday at 00:00 AM SGT.

- Rome CET UTC+1 17.00 (on Monday)
- Tokyo JST UTC+9 1.00
- Taipei CST UTC+8 0.00
- Bangkok ICT UCT+7 23.00 (on Monday)
- Moscow MSK UTC+3 19.00 (on Monday)
- Miami EST UTC-5 11.00 (on Monday)
- Los Angeles PST UTC-8 8.00 (on Monday)

Note that time zones may change between standard and daylight savings time. However, the company reserves the right to change this closing time for any reason.

ETHICAL POSITIONING

It is forbidden to attempt to 'game' the system to generate more rewards. Any Member attempting to do so may, at the Company's sole discretion, have their account terminated. The Company reserves the right to deduct this amount from a Member's rewards or to take action to seek monetary damages up to two times the fraudulent reward paid plus any legal costs.

HUB

A Hub is a digital space in the inPersona App that contains a user's connections and the $USDV/$VSC produced by them.

HUB VOLUME

All purchases made within your Hubs during an epoch generate Hub volume (HV).

MINIMUM PAYABLE HUB VOLUME

For the Social Community Pool Reward, the payable amount must exceed 100 USDV. If it does not, the payment will be carried over and calculated in the next epoch.

PERSONAL CAP

The maximum USDV reward that a Member can earn is 250,000 USDV per epoch.

REWARD FLUSHES

When a member is not Active at the end of a epoch, all the rewards and volumes will be lost and not computed for this Epoch.

REFERRER

A referrer is a Member who owns a Hub console and actively participates in the vGeneneration SocialFi program.

REWARDS CALCULATION

Some rewards are computed instantly, while others are calculated on a daily basis. Additionally, periodic (usually seven days) rewards are calculated the day following the epoch's closure. The results of these calculations will be finalized and accessible in your app.

TOTAL REWARDS CAP

The maximum rewards amount in a single epoch is 35% of the total sales generated inside the SocialFi ecosystem for the same Epoch. Any amount in excess will be deducted proportionately between all the participants.
